## Industry leading precision and craftsmanship

CENTERPRO SYSTEMS, founded in 2022, boasts a team of experienced professionals with over 30 years of experience in the industry, specializing in the design and fabrication of electrical control panels for a wide range of sectors. Our control panels are custom-made to meet the specific needs of each client, and we are committed to delivering top-quality products and exceptional customer service. We are certified to build panels to the UL508A standard, ensuring that our products meet the highest safety and performance standards in the industry. At CENTERPRO SYSTEMS, we take pride in our ability to provide reliable and efficient control solutions to our clients, no matter their industry or project requirements. Contact us today to learn more about how we can help you with your electrical control panel needs.
